CHIEF COMPLAINT:

cardiac evaluation for pre op clearance

HISTORY OF PRESENT ILLNESS:

Cardiac consultation at the request of Dr. Wael K Barsoum. A copy of this consultation note will be

provided to the requesting physician by way of shared Medical record or letter to requesting physician via US mail.

Ms. Chapman is a 62 year old female who is seen today for cardiac evaluation pre op. Patient is scheduled for a hip replacement on 9-4-12 with Dr. Barsoum. Patient has a history of GERD, sarcoidosis, HTN, DM, and CHF. Patient states that she gets chest pain after eating from her GERD. Patient states she get SOB with activity because she is out of shape. Patient states her hip has been keeping her from doing any exercise for about a year. She states she get ankle edema occasionally. She denies orthopnea, cough, palpitations, PND, lightheadedness or syncope.

I personally obtained the history of present illness.
